Early Entry at La Trobe – New Aspire program!
Aspire is a new program which takes into consideration a students history of community service, leadership, and academic results as opposed to just the ATAR. Students who are selected into the program will be guaranteed entry into the degree of their choice with an ATAR of 50, as long as they meet prerequisite study scores. Professional degrees such as physiotherapy and law will have a higher ATAR.

Those who are selected into the program will undertake an engagement program with La Trobe whilst they are still at school and completing their exams. Applications open 1 July and close 31 August. Students will know if they have been selected into the program in September. To find out more, go to www.latrobe.edu.au/school/aspire

New clinical school partnership for Australian Catholic University (ACU) nursing students: A new partnership has been formed between the ACU Clinical School and St Vincent’s Hospital Melbourne. ACU nursing students will undertake their placements solely at St Vincent’s rather than across different health services.

It is hoped that placements will extend in the future to students studying psychology, midwifery, paramedicine, and allied health. To read about the new partnership, go to www.acu.edu.au/637723

Interested in health, IT and business? You may enjoy a career in health information management. According to La Trobe University, “there is a national workforce shortage in this industry, which means graduates are in high demand. Salaries range from $50 000 - $180 000 at senior level”. The course at La Trobe University is called the Bachelor of Health Sciences (Medical Classification)/ Bachelor of Health Information Management. Find out more at this link- http://www.latrobe.edu.au/health/areas-of-study

New Bachelor of Outdoor Education at Charles Sturt University: This new course will meet the growing demand for outdoor educators in schools. Available through CSU’s Albury-Wodonga Campus, this course has a strong practical focus and students will major in outdoor education and geography, enabling them to work in secondary schools and a range of community organisations such as youth centres, health care, government agencies and sport and recreation.

Employment opportunities are varied and can include roles such as group leader, activity specialist, adventure guide or expedition leader. The course includes extensive professional experience teaching in a variety of secondary schools including international, rural, regional and/or urban settings. Learn more about this exciting new offering at CSU by visiting: www.csu.edu.au/courses/undergraduate/outdoor_education
**Law at Australian Catholic University:** Law students are required to undertake 80 hours of pro bono work from second year onwards. Second year law student Ellen Turner recently undertook pro bono work with the Refugee and Immigration Legal Centre (RILC). A case she was working on was taken to the High Court of Australia. Read about her amazing experience here - [www.acu.edu.au/620181](http://www.acu.edu.au/620181)

**Get your Commercial Pilots Licence while studying business:** Par Avion Flight Training (PAFT) and the University of Tasmania have joined together to offer a 3 year full time Bachelor of Business (Aviation) which gives students a commercial pilot licence with a multi-engine command instrument rating, through a tertiary degree course, based in Hobart, Tasmania (Cambridge Aerodrome). For more information contact [enquiries@business.utas.edu.au](mailto:enquiries@business.utas.edu.au)

**Careers of tomorrow:** Curtin University have produced a fantastic resource exploring future careers, skill shortage areas, and exciting occupations in the field of science. You can view the magazine via this link - [http://curtincareers.realviewdigital.com/?iid=91923#folio=1](http://curtincareers.realviewdigital.com/?iid=91923#folio=1)

**COSMOS science magazine:** This magazine is amazing and is a must for all students passionate about science to subscribe to. Like the Curtin magazine, it contains stories about exciting science discoveries, and the science careers of tomorrow. To read copies of the magazine and to subscribe, go to [http://cosmosmagazine.com/](http://cosmosmagazine.com/)
